Subject

Letter No. 54/5 dated the 7 July 1903, from the Senior Surgeon, requesting Sanction for Rs 4,000/- to effect necessary improvements in the Town of Hassan.

The Deputy Commissioner, Hassan District, in his w.o., dated the 27th February 1902, requested Sanction to the grant of Rs 3,000/- from plague funds, for opening out ~~Removing~~ certain Congested portions in the Town of Hassan, on Sanitary grounds.

+S. No 1 (B).

2: In this office No 15299/Lks/1618 dated the 15 March 1902, the Dy Comm^r was informed that the application for funds would be considered on receipt through the Senior Surgeon, of detailed plans & estimates for the work referred to; and a copy of this was also forwarded to the Senior Surgeon

+S. No 2 (C)

Surgeon ~~Hospital~~ has spoken while forwarding the estimates etc.

3 The Senior Surgeon has with his letter No 54/P dated the 7 July 1903, now forwarded, a plan of the Hassan Town with a list showing the number of houses proposed to be acquired and the probable amount of Compensation payable therefor, viz, Rs 3981-5-8 and requests sanction for Rs 4,000/- to enable the Dy Commr to effect the necessary improvements, and further states that a Sum of Rs 3,000/- has been partly provided for the work in question in the plague Budget for the year 1903-1904.

Note - In the detailed Budget this provision was disallowed, but a lump sum grant of 1 Lakh was made for plague expenditure.

RB 13/7/03

Note In the above letter, the Senior Surgeon, refers to his Inspection Notes of the Hassan Town, forwarded with his letter No 112 dated the 27th September 1902.

In the Inspection notes he states as follows.—

"A lot of very useful work has been done in relieving congested areas and opening out roads and Conservancy lanes. There is however a good deal more to be done. I next inspected the various houses that

that it is proposed to remove at an estimated cost of Rs 3981/- as Compensation (3). I am of opinion that the work is very necessary and would strongly advise Government to sanction it. I was glad to find that Compensation had been promptly paid to those whose houses had been demolished with the result that many of them had been able to build new houses in the North & North-Western extensions, whilst going through the town I had not a single complaint preferred against the action taken by the Dy Comm^r, on the contrary the people seemed only too ready to clear out."

4. ~~Submitted~~ The sum of Rs 3000/- provided for the work in the Budget submitted by the Senior Surgeon was disallowed, but a lump sum grant of Rs 1 lakh was made for Expenditure on Connection with plague precautionary measures. The financial Condition of the Hassan Town Municipality which is as shewn in the margin

is not satisfactory and unless a sum of Rs 40000/, is allotted out of the Plague-grant, it would be impossible to improve the town. But whether this is a legitimate charge on the Plague Budget requires consideration.

Submitted for orders

AB

This does not strictly speaking form a valid charge, but I think a grant-in-aid may be given

15/7/03

To the Dewan,
through the 2nd. Councillor.

S. I agree. The grant asked for may be sanctioned from the Plague Budget. I think, this may, as a special case be regarded as a Plague Preventive measure. The Board has absolutely no funds at its disposal for carrying out the improvements in question. The town is in a very insanitary condition & needs removal of congestion

7. The Dy Comm. The order asked for is a formal one and I see no objection to it being passed. The grant was a Provincial one (Plague) and the adjustments proposed appear unobjectionable in any way. GL

P.S.
The grant in question has enabled the Bombay to effect considerable sanitary improvements in the town of Karachi. A small additional grant is necessary to enable the Bombay Govt to complete the work of improvement he has on hand. This I have satisfied myself about by personal inspection and I intend making an early representation on the subject. GL

in to comparatively a short period as nobody knows where plague is lurking disinfection has been long on, but the process has its admitted defects. Well-built houses and even ordinary ones here maybe a presumption against the danger of reoccupation after their recent period of evacuation and proper disinfection. Port Hassan thus forming a health resort. To the high-towering plenitude even during pestilence is notorious for its low-built damp & ill-ventilated houses. It has been my constant endeavour ever since I came here to acquire them gradually and thereby open up new roads & conservancy lanes. Only

classes were shifted on to the remote
parts of the line and sidings were
allotted for the construction of new
houses the performance was as
might be expected very great but
this was overcome by cattle pen
making ~~[illegible]~~ But the greatest
obstacle to any substantial improve-
ment in this direction is the want
of funds. The Civil Engineer
managed to meet the difficulty
partly by reappropriation of funds
allotted in the budget for other
purposes such as repairs of roads
construction of drains &c but
was the only possible thing under

the circumstances in this way besides
the opening up of new roads and improv-
ing lanes &c, the whole of the
Western & South Western fort walls
were demolished & the trenches were
filled up so as to serve as building
sites. But the compensation required
for the acquisition of houses would
be a very large amount - which even
in ordinary days the municipality
could ill afford to pay up. But the
unfortunate outbreak of plague has
seriously affected the finances. While
the ordinary monthly octroi income
was between 4 50 & 500 Rs it has been
only between 300 & 400 Rs during the past

4 or 5 months. It is apprehended
also that there will be a great
decrease under the head Industry
particularly under shop tax making
all possible allowance for economy it
is computed that there will be a falling
off of at least Rs 4000- in the princi-
pal of the current year This
need hardly say, is owing to a want
of capital of the type of Hussain

I feel therefore certain that
there will be an end to all my further
attempts unless Govt- can lend them
helping hand It seems in the first
place to be absolutely necessary

to remove the worst dwellings of the source of infection viz the Telelan and Kumbar wada which I mentioned before having mentioned to me once before with a sum of about Rs 3000 which about 8 or 9 houses could be acquired & of these houses are continued to remain I am afraid there can be no safety for Hussan the most opportune seems the best for effecting needful improvements which I am anxious not to lose and if at a time like this he will kindly help the poor municipality with a grant of at least Rs 3000

out of Plague funds. Kindly allow
me to say that no form of help
will be more endearing and
no money will have been better
spent. I dare say it will serve
a most substantial purpose
by presenting the recondite case of
plague with which the various
societies & the manifold interests
& interviews worries & losses alike
to the public & court which will
ensue from ~~[illegible]~~

~~[illegible]~~

to minds the accomplishment
of the Project alone undertaken I

I should be much hurt that I had
your warmest sympathy & support
I do not wish to take any more
in the matter without your personal
instruction & kind instructions I
shall therefore feel much obliged
if you will be pleased to pay a visit
to Hassan at your convenience
If you will kindly drop a line in reply
as to the date of your visit I shall
arrange & meet you here It is probable
that His Excellency Lord Ampthill
pays a short visit to Khasekera
the end of March for tiger shooting

With best wishes
Yours sincerely
